

Parking

The apartment building does not have parking. You may find paid parking lots as well as free street parking 2-10 minutes walk away from the building.

Tips for Parking

- Savvas Car Park just behind the Ayia Napa Cathedral is the nearest one to our building as there is a pathway directly from the back of the parking place to our building street. Please note that you cannot park on Savvas Car Park during Sundays from morning till late afternoon as there is an open air market at the parking area.
- In case you will need a parking spot for more than 5-6 days and not just randomly then you can negotiate the total price with the parking attendant.
- Fridays, Saturdays and Sundays from late afternoon, parking spots can be full as the historic center becomes busy during

the nights and especially on weekends.
